Subject index

A

Absorption and biliary excretion of erythromycin and two of its derivatives in humans, factors affecting (Hammond and Griffith), 308
of digitalis (Modell), 184
of hypnotics and sedatives (Shideman), 332
with modern drug therapy (Friend), 136
of oral doses of tetracyclines (Kunin and Finland), 53
Abstinence reaction, opiate, suppression (Fraser, Martin, Wolbach, and Isbell), 290
Acetazolamide (Gunn, Gogerty, and Wolf), 741; (Modell) 567
Acetylsalicylic acid compound, effectiveness of dextropropoxyphene, codeine, and meperidine with and without (Gruber, Doss, Baptisti, and Chernish), 429
Acetylstrophanthidin (Modell), 177
Acid, ascorbic, metabolism, effects of nicotine and smoking on (Larson, Haag, and Silvette), 94
folic, analogues, resistance to (Brockman), 250
antagonists (Holland), 374
new, 400
lactic, effect of nicotine on (Larson, Haag, and Silvette), 88
triiodothyropropionic, metabolic effects and therapeutic applications (Leeper, Mead, Money, and Rawson), 13
uric, calculi (Moser), 488
vanillic, diethylamide, pharmacologic effects in man (Miller, Hand, and Crellin), 689
ACTH suppression by cortisol (Liddle), 616
Addiction to hypnotics and sedatives (Shideman), 330
to I-K-1 (Fraser, Martin, Wolbach, and Isbell), 293
liability of an isoquinoline analgesic, 1-(*p*-chlorophenethyl)-2-methyl-6,7-dimethoxy-1,2,3,4-tetrahydroisoquinoline, 287
to trichloroethylene (Defalque), 672
Adenines (Brockman), 237
Adrenal cortical steroids (Gunn, Gogerty, and Wolf), 742
Adrenal—Cont'd
function, effects of spirolactones on (Streeten), 362
hyperplasia, congenital, virilizing (Liddle), 630
regeneration hypertension, spirolactones in (Streeten), 362
suppression syndrome (Moser), 484
Adrenergic blocking agents (Winsor and Hyman), 644
Adrenolytic drugs (Bellet), 356
Afferent loop syndrome (Moser), 508
Agranulocytosis (Selenkow and Collaço), 205
Aldosterone, excessive production, use of spirolactones in (Streeten), 359
Alkali-milk syndrome (Moser), 490
Alkalinization and forced diuresis in barbiturate poisoning (Clemmesen and Nilsson), 227
Alkalinizing agents that increase cardiac rhythmicity (Bellet), 349
Alkaloids, Rauwolfia (Smirk), 114
and hypotensive diuretic, combination, 116
Allergic reactions, acute (Liddle), 628
to antithyroid drugs (Selenkow and Collaço), 203
to sodium dehydrocholate (Schoenfeld and Messeloff), 816
Allergy, in modern drug therapy (Friend), 139
Aluminum compounds as antacids (Friend), 704
American drug index (Wilson and Jones) (B. rev.), 414
Amethopterin (Brockman), 237; (Holland) 374
Amine oxidase inhibitors (Scherbel), 559
Aminobenzene (Selenkow and Collaço), 200
4-Aminofolic acid (Holland), 374
Aminoglutethimide (Gunn, Gogerty, and Wolf), 742
Aminoheterocyclic compounds (Selenkow and Collaço), 200
2-Amino-6-(1′-methyl-4′-nitro-5′-imidazolyl)thiopurine (Burchenal and Ellison), 536
Amobarbital (Shideman), 313
Amphenone (Selenkow and Collaço), 191
Amphetamine (Done), 775; (Gunn, Gogerty, and Wolf) 742
Amyl nitrite (Done), 767
Anabolic and androgenic actions of spirolactones (Streeten), 362
Analgesia (Defalque), 671
central nervous system, with sedatives and hypnotics (Shideman), 318

January-February, pp. 1-140; March-April, pp. 141-282; May-June, pp. 283-426; July-August, pp. 427-566; September-October, pp. 567-708; November-December, pp. 709-858.

Analgesic drugs (Friend), 834
isoquinoline, 1-(*p*-chlorophenethyl)-2-methyl-6,7-dimethoxy-1,2,3,4-tetrahydroisoquinoline, addiction liability (Fraser, Martin, Wolbach, and Isbell), 287
studies; comparative respiratory depressant activity of phenazocine and morphine (Papadopoulos and Keats), 8
use of postpartum patients in evaluating (Gruber, Doss, Baptisti, and Chernish), 429
Anaphylaxis (Moser), 463
Androgenic and anabolic actions of spirolactones (Streeten), 362
Anemia, aplastic (Moser), 465
after gastrectomy, 508
hemolytic, autoimmune (Liddle), 627
following surgery, 467
Anesthesia, complications after (Moser), 514
spinal, 494
trichloroethylene (Defalque), 665
Anesthesiology, pharmacologic basis (Papper) (Edit.), 141
Anesthetic agents, general, circulatory actions, and homeostatic roles of epinephrine and norepinephrine in man (Price), 163
intravenous, during surgical operations, limiting factor in utilization (Keeri-Szanto), 45
time/dose curves. II. Limiting factor in utilization of intravenous anesthetics during surgical operations, 45
III. Interaction of thiopental and oxymorphone during surgical anesthesia (Keeri-Szanto, Knaff, and Rondeau), 441
Angina pectoris, complication in myxedema, triiodothyropropionic acid as replacement therapy (Leeper, Mead, Money, and Rawson), 13
Announcements, 134, 273, 419
Annual review of biochemistry (Luck) (B. rev.), 131
of pharmacology (Cutting) (B. rev.), 556
of physiology (Hall) (B. rev.), 829
Antacids (Friend), 703
Antagonists, barbiturate (Done), 772
folic acid (Holland), 374
new, 400
narcotic (Done), 757
effect on pupil diameter of nonaddicts (Elliott and Way), 713
purine and pyrimidine (Burchenal and Ellison), 523
Antiarrhythmic drugs, clinical pharmacology (Bellet), 345
new, some effects (Kahn, Lewis, Killough, and Abrams), 147
Antibacterial agents (Friend), 835
Antibiotic, erythromycin (Hammond and Griffith), 308
-induced diseases (Moser), 447
tetracycline, clinical pharmacology (Kunin and Finland), 51
Anticancer activity, metabolite analogues with, mechanisms of resistance to (Brockman), 237
drugs, therapeutic responses to, meaningful clinical classification (Karnofsky) (Edit.), 709
Anticholinergic agents (Gunn, Gogerty, and Wolf), 743
Anticholinesterase poisoning, antidotes (Done), 762
Anticoagulants (Done), 777; (Howard) 423
and central nervous system (Moser), 458
Anticonvulsant actions of sedatives and hypnotics on central nervous system (Shideman), 318
compounds, clinical pharmacology (Gunn, Gogerty, and Wolf), 733
Antidotes for anticholinesterase poisoning (Done), 762
cyanide, 765
prospects in fluoroacetate poisoning, 768
systemic, clinical pharmacology, 750
Antihistamine drugs (Bellet), 356
Antihypertensive drugs (Friend), 834
Anti-inflammatory steroids, clinical pharmacology (Liddle), 615
Antimetabolites, experimental pharmacology and clinical use, symposium, 121, 237, 359, 374, 523
resistance to, proposed mechanisms (Brockman), 253
use of combinations for chemotherapy of cancer (LePage), 121
Antimicrobial drug (demethylchlortetracycline) (Vosti, Willett, and Jawetz), 29
Antiparkinsonism drugs (Friend), 834
Antiprothrombin anticoagulants (Done), 777
Antipruritic agents, method for evaluating (Friend), 605
Antithyroid compounds, clinical pharmacology (Selenkow and Collaço), 191
Aortic contractility, action of spirolactones on (Streeten), 361
Aplastic anemia (Moser), 465
Apnea (Moser), 497
Arteriosclerotic heart disease, bundle branch block caused by, effect of steroids on (Schoenfeld and Messeloff), 692
Arteritis (Moser), 463
Arthritis, rheumatoid (Liddle), 625
vasculitis of (Moser), 481
Arthropathy, scorbutic (Moser), 482
Ascorbic acid metabolism, effects of nicotine and smoking on (Larson, Haag, and Silvette), 94

Asthma, bronchial (Liddle), 629
Atherosclerosis, coronary or generalized, imipramine hydrochloride in (Muller, Goodman, and Bellet), 300
Atrial rate, effect of RO 2-5803 on (Kahn, Lewis, Killough, and Abrams), 148
Atropine (Bellet), 348; (Done) 762
Autonomic nervous system, use of sedatives and hypnotics on (Shideman), 325
8-Azaguanine (Brockman), 241
Azapetine (Winsor and Hyman), 649
Azaserine (Brockman), 248; (LePage) 121
comparative study of optimal medical care with and without in multiple myeloma (Holland et al.), 22
6-Azauracil (Brockman), 247
8-Azaxanthine (Brockman), 241

B

Bactericidal studies with penicillin X-1497 (Roberts, Allen, and Kirby), 70
BAL (Done), 753
Barbiturate antagonist? (Done), 772
injection, intramuscular, nerve injury from (Richards), 262
poisoning, therapeutic trends; Scandinavian method (Clemmesen and Nilsson), 220
Barbiturates (Gunn, Gogerty, and Wolf), 735; (Shideman) 313
Barium chloride (Bellet), 350
Basal metabolic rate of smokers (Larson, Haag, and Silvette), 81
Behavioral effects of hypnotics and sedatives (Shideman), 314
of psychopharmacologic agents, measured by interaction chronograph (Tuason and Guze), 152
Bemegride (Clemmesen and Nilsson), 224; (Done) 772
Benzmorphan compound (phenazocine) (Papadopoulos and Keats), 8
Benzylpenicillin (Dowling), 572
Bicarbonate, sodium (Friend), 703
Bile fistula, erythromycin for (Hammond and Griffith), 308
Biliary excretion and absorption of erythromycin and two of its derivatives in humans, factors affecting (Hammond and Griffith), 308
Biochemical actions of antithyroid drugs (Selenkow and Collaço), 194
of folic acid antagonists (Holland), 381
mechanisms of resistance of anticancer drugs (Brockman), 237
Bishydroxycoumarin (Howard), 423
Blood pressure (Defalque), 669
effect of digitalis on (Modell), 183
with imipramine hydrochloride in cardiovascular patients (Muller, Goodman, and Bellet), 303, 306
reduction, extent desirable (Smirk), 112
sugar, effects of hypnotics and sedatives on (Shideman), 328
of nicotine and tobacco smoke on (Larson Haag, and Silvette), 84
Book reviews
American drug index (Wilson and Jones), 414
Annual review of biochemistry (Luck), 131
of pharmacology (Cutting), 556
of physiology (Hall), 829
Cell function (Langley), 554
The central nervous system and behavior (Brazier), 268
Chemobiodynamics and drug design (Schueler), 697
Clinical toxicology (Polson and Tattersall), 550
Concepts of medicine (Lush), 700
Controlled clinical trials (Hill), 550
Detoxication mechanisms (Williams), 269
Disease and the advancement of basic science (Beecher), 410
The dispensatory of the United States of America, 1960 edition, New drug developments volume (Osol and Pratt), 271
Drugs and behavior (Uhr and Miller), 700
in the treatment of disease (British Medical Association), 831
Enzymes in clinical medicine (Innerfield), 828
Essential hypertension (Bock and Cottier), 552
Evaluation of drug therapy (Forster), 553
Handbook of chemistry and physics (Hodgman), 412
The human blood proteins (Wuhrmann and Wunderly), 827
An introduction to the experimental method (Little), 830
to pharmacology (Lewis), 552
Medical almanac 1961-62 (Nagan), 555
physiology and biophysics (Ruch and Fulton), 130
Metabolic aspects of renal function (Lotspeich), 555
pathways (Greenberg), 554
The metabolism of cardiac glycosides (Wright), 411
An MMPI handbook (Dahlstrom and Welsh), 699
Modern drug encyclopedia (Fein), 413
New and nonofficial drugs 1961 (A.M.A. Council on Drugs), 413
Physicians' desk reference 1961, 413
introduction to electronics: A laboratory manual (Morris), 830

Book reviews—Cont'd
Quantitative methods in pharmacology (De Jonge), 828
Selective toxicity (Albert), 270
Side effects of drugs (Meyler), 549
Style guide for chemists (Fieser and Fieser), 411
manual for biological journals (Conference of Biological Editors), 552
Tobacco: Experimental and clinical studies (Larson, Haag, and Silvette), 556
Toxic phosphorus esters: Chemistry, metabolism, and biological effects (O'Brien), 412
Toxicology: Mechanisms and analytical methods (Stewart and Stolman), 272
Books received, 132, 272, 414, 557, 701, 831
Bretylium tosylate (Smirk), 117
BRL 1241 (Roberts, Allen, and Kirby), 79
Broad spectrum antibiotics (Moser), 450
Bromides (Done), 777; (Shideman) 313
Bromine metabolism, effect of nicotine and smoking on (Larson, Haag, and Silvette), 94
Bronchial asthma (Liddle), 629
Bundle branch block caused by arteriosclerotic heart disease, effect of steroids on (Schoenfeld and Messeloff), 692

C

Caffeine (Wilson and Huby), 587
Calcium compounds as antacids (Friend), 704
effects on digitalis action (Modell), 188
metabolism, effects of nicotine and smoking on (Larson, Haag, and Silvette), 91
Calorimetry (Winsor and Hyman), 638, 640
Cancer chemotherapy agents, nomenclature (Ihndris), 274
screening of compounds (Holland et al.), 22
use of combinations of antimetabolites (LePage), 121
effect of methionine sulfoximine on (Krakoff), 601
Candida albicans (Moser), 449
Capillaritis (Moser), 463
Carbimazole (Selenkow and Collaço), 208
Carbohydrate metabolism, altered (Moser), 490
effects of cortisol on (Liddle), 617
of nicotine and smoking on (Larson, Haag, and Silvette), 84
Carcinoma, mammary, metastatic (Liddle), 630
radiation-induced (Moser), 498
Cardiac arrest (Defalque), 670
automaticity, effect of digitalis on (Modell), 183
circulation (Winsor and Hyman), 641
disease (Moser), 456
arteriosclerotic, bundle branch block caused by, effect of steroids on (Schoenfeld and Messeloff), 692
Cardiac—Cont'd
excitability, quinidine and other drugs that decrease (Bellet), 352
glycosides (Friend), 834
operation, diseases after (Moser), 511
output, effect of digitalis on (Modell), 182
rhythm (Defalque), 669
parasympathomimetic drugs that reduce (Bellet), 351
sympathomimetic and vagolytic alkalinizing drugs that increase, 345, 348, 349
drugs that secondarily decrease, 350
Cardiovascular disease, hypotensive effect of imipramine hydrochloride in patients with (Muller, Goodman, and Bellet), 300
effect of vasodilating drugs (Winsor and Hyman), 636
system (Defalque), 669
after barbiturate poisoning (Clemmesen and Nilsson), 223
use of hypnotics and sedatives on (Shideman), 323
Categories of response to anticancer drugs (Karnofsky) (Edit.), 711
Cell function (Langley) (B. rev.), 554
Cellulitis, demethylchlortetracycline in (Vosti, Willett, and Jawetz), 35
Central nervous system (Defalque), 671
and anticoagulants (Moser), 458
and behavior (Brazier) (B. rev.), 268
depressants (Shideman), 313
drugs acting on, assessment of responses to (Wilson and Huby), 587
effect of digitalis on (Modell), 183
leukemia, intrathecal administration of folic acid antagonists for (Holland), 392
Changes in drug-labeling requirement; changes in new-drug applications; amendment in final order and changes in effective date (New information on drugs), 266
Charcot's joint (Moser), 481
Chelating agents in metal poisoning (Done), 752
Chemobiodynamics and drug design (Schueler) (B. rev.), 697
Chemotherapy of acute leukemia (Holland), 388
of cancer, agents, nomenclature (Ihndris), 274
screening of compounds (Holland et al.), 22

  drug therapy (Smirk), 110
  essential, spirolactones in (Streeten), 366
Hyperthyroidism, preparation of subjects for ablative therapy (Selenkow and Collaço), 210
  treatment, 191
Hypnotic drug (glutethimide) (Winters and Grace), 40
  sedative (Friend), 833
Hypnotics and sedatives, clinical pharmacology (Shideman), 313
Hypocholesterolemic agent in euthyroid individuals, triiodothyropropionic acid (Leeper, Mead, Money, and Rawson), 13
Hypoglycemia of infancy, idiopathic (Liddle), 630
Hypoprothrombinemic states, treatment with vitamin K (Finkel), 794
Hypotension (Moser), 460
Hypotensive effect of imipramine hydrochloride in patients with cardiovascular disease (Muller, Goodman, and Bellet), 300
  therapy (Smirk), 110
Hypothalamic ganglion-blocking drugs (Winsor and Hyman), 644

I

Iatrogenic disease (Moser), 446
Idiopathic edema, spirolactones in (Streeten), 367
  hypoglycemia of infancy (Liddle), 630
  thrombocytopenic purpura, 627
I-K-1 (Fraser, Martin, Wolbach, and Isbell), 287
Imipramine hydrochloride, hypotensive effect in patients with cardiovascular disease (Muller, Goodman, and Bellet), 300
Immunity, viruses, and folic acid antagonists (Holland), 398
Industrial medicine, clinical pharmacology (Warshaw), 230
  toxicology of trichloroethylene (Defalque), 673
Infections (Moser), 449, 483
Infections—Cont'd
  pulmonary, demethylchlortetracycline in (Vosti, Willett, and Jawetz), 33
    penicillin X-1497 in (Roberts, Allen, and Kirby), 77
  skin, treated with DMCT (Vosti, Willett, and Jawetz), 37
  staphylococcal, penicillin X-1497 in (Roberts, Allen, and Kirby), 76
  urinary tract, DMCT in (Vosti, Willett, and Jawetz), 35
Inflammatory responses, alteration by cortisol (Liddle), 616
Inorganic antithyroid compounds (Selenkow and Collaço), 200
Interstitial pulmonary fibrosis (Moser), 497
Interview behavior, measured by interaction chronograph (Tuason and Guze), 152
Intolerance to antithyroid drugs (Selenkow and Collaço), 203
Intramuscular barbiturate injection, nerve injury from (Richards), 262
Intravenous anesthetics during surgical operations, limiting factor in utilization (Keeri-Szanto), 45
  vanillic acid diethylamide, pharmacologic effects in man (Miller, Hand, and Crellin), 689
Introduction to the experimental method (Liddle) (B. rev.), 830
  to pharmacology (Lewis) (B. rev.), 552
Investigations (*see* Studies)
Iodide metabolism, intrathyroidal pathways (Selenkow and Collaço), 194
Iodine metabolism, effects of nicotine and smoking on (Larson, Haag, and Silvette), 93
Iodothyronines and iodotyrosines (Selenkow and Collaço), 196, 198
Isocarboxazide (Scherbel), 560
Isoproterenol (Bellet), 347
Isoquinoline analgesic, 1-(*p*-chlorophenethyl)-2-methyl-6,7-dimethoxy-1,2,3,4-tetrahydroisoquinoline, addiction liability (Fraser, Martin, Wolbach, and Isbell), 287
Isoxsuprine (Winsor and Hyman), 655

K

Kanamycin (Moser), 450
Kernicterus (Moser), 477

L

Laboratory and clinical studies of penicillin X-1497 (Roberts, Allen, and Kirby), 70
  tests on demethylchlortetracycline therapy (Vosti, Willett, and Jawetz), 35

Lactic acid, effect of nicotine (Larson, Haag, and Silvette), 88
Lanatoside C (Modell), 177
Laryngectomy, complications after (Moser), 510
Lauryl sulfate salt of propionyl ester of erythromycin (Hammond and Griffith), 308
Lethal synthesis and enzyme deletion (Brockman), 238
Leukemia, acute (Burchenal and Ellison), 531
chemotherapy (Holland), 388
central nervous system, intrathecal administration of folic acid antagonists for, 392
chronic granulocytic, 535
lymphatic, 536
radiation-induced (Moser), 498
Levallorphan (Done), 757
effect on pupil diameter of nonaddicts (Elliott and Way), 713
Lidocaine (Gunn, Gogerty, and Wolf), 743
Lipid pneumonia (Moser), 497
Lipoprotein and blood cholesterol, effect of smoking on (Larson, Haag, and Silvette), 89
Loeffler's syndrome (Moser), 498
Lupus erythematosus, disseminated (Liddle), 626
syndromes like (Moser), 464
Lymphatic leukemia, chronic (Burchenal and Ellison), 536
Lymphoid tissue, effects of cortisol on (Liddle), 617
Lymphomas (Burchenal and Ellison), 536
Lysis of staphylococci by penicillin X-1497 (Roberts, Allen, and Kirby), 72

M

M & B 4500, 5409, and 5409A (Smirk), 110
Magnesium compounds as antacids (Friend), 704
metabolism, effect of nicotine and smoking on (Larson, Haag, and Silvette), 94
Malnutrition and deficiency syndromes (Moser), 508
Mammary carcinoma, metastatic (Liddle), 630
Measurement of uncertainty (Werner), 143
Mecamylamine (Smirk), 110
Medical almanac 1961-62 (Nagan) (B. rev.), 555
physiology and biophysics (Ruch and Fulton) (B. rev.), 130
Menadione, menadione sodium bisulfite, and menadiol sodium diphosphate (Finkel), 794
Meperidine (Keeri-Szanto), 45
dextropropoxyphene, and codeine, effectiveness as analgesic drugs (Gruber, Doss, Baptisti, and Chernish), 429
Mephentermine (Bellet), 351
Mephobarbital (Gunn, Gogerty, and Wolf), 735; (Shideman) 313
Mercaptoimidazole (Selenkow and Collaço), 191
6-Mercaptopurine (Brockman), 245; (Burchenal and Ellison) 529
Mercurial diuretics (Modell), 567
Metabolic aspects of renal function (Lotspeich) (B. rev.), 555
diseases (Moser), 488
effects of hypnotics and sedatives (Shideman), 327
and therapeutic applications of triiodothyropropionic acid (Leeper, Mead, Money, and Rawson), 13
functions, some effects of nicotine and smoking on (Larson, Haag, and Silvette), 80
pathways (Greenberg) (B. rev.), 554
processes, action on, in modern drug therapy (Friend), 137
Metabolism, carbohydrate, altered (Moser), 490
of cardiac glycosides (Wright) (B. rev.), 411
of hypnotics and sedatives (Shideman), 334
iodide, intrathyroidal pathways (Selenkow and Collaço), 194
protein, carbohydrate and electrolyte effects of cortisol on (Liddle), 616, 617
of trichloroethylene (Defalque), 667

Psychosis, toxic, caused by methionine sulfoximine in man (Krakoff), 599
Psychotherapeutic agent, imipramine hydrochloride (Muller, Goodman, and Bellet), 300
Pulmonary complications of irradiation (Moser), 500
diseases, 497
fibrosis, interstitial, 497
infections, demethylchlortetracycline in (Vosti, Willet, and Jawetz), 33
Pulmonary infections—Cont'd
penicillin X-1497 in (Roberts, Allen, and Kirby), 76
operation, diseases secondary to (Moser), 513
Pulse rate with imipramine hydrochloride in cardiovascular patients (Muller, Goodman, and Bellet), 304
Pupil diameter, effect of narcotic antagonists on nonaddicts (Elliott and Way), 713
Purine analogues, resistance to (Brockman), 241
biosynthesis, resistance to glutamine analogues which can inhibit, 248
and pyrimidine antagonists (Burchenal and Ellison), 523
synthesis (LePage), 121
Purpura (Moser), 468
idiopathic and thrombotic thrombocytopenic (Liddle), 627
β-Pyridylcarbinol (Winsor and Hyman), 652
Pyrimidine analogues, resistance to (Brockman), 247
and purine antagonists (Burchenal and Ellison), 523

Q

Quantitative methods in pharmacology (De Jonge) (B. rev.), 828
Quinalbarbitone (secobarbital) (Wilson and Huby), 587
Quinidine (Moser), 457
and other drugs that decrease cardiac excitability (Bellet), 352
sulfate, comparison with RO 2-5803 (Kahn, Lewis, Killough, and Abrams), 148

R

Radiation-induced diseases (Moser), 498
Radioactive iodine (Selenkow and Collaço), 208
Radiolabeled tetracyclines, distribution (Kunin and Finland), 60
Rauwolfia alkaloids (Smirk), 114
and hypotensive diuretic, combination, 116
Regional administration of amethopterin (Holland), 396
Regulations for enforcement of the Federal insecticide, fungicide, and rodenticide act, (New information on drugs), 694
Renal circulation (Winsor and Hyman), 641
clearance and plasma protein binding with tetracyclines (Kunin and Finland), 57
complications of barbiturate poisoning (Clemmesen and Nilsson), 226
disease (Moser), 505
failure, effect on removal of tetracyclines from body (Kunin and Finland), 57
shutdown, acute (Moser), 505
Rescinnamine (Smirk), 110
Reserpine (Bellet), 356; (Moser) 457; (Smirk) 110

Resistance to drugs, circumvention (Brockman), 252
to glutamine analogues which can inhibit purine biosynthesis, 248
to metabolite analogues with anticancer activity, mechanisms, 237
to penicillin X-1497, development (Roberts, Allen, and Kirby), 73
to penicillinase, 74
to pyrimidine analogues (Brockman), 247
Respiration (Defalque), 670
and airway in barbiturate poisoning (Clemmesen and Nilsson), 224
artificial, 225
with sedatives and hypnotics (Shideman), 322
Respiratory depressant activity, comparative, of phenazocine and morphine (Papadopoulos and Keats), 8
stimulant, vanillic acid diethylamide (Miller, Hand, and Crellin), 689
Retrolental fibroplasia (Moser), 489
Rheumatic fever (Liddle), 626
Rheumatoid arthritis (Liddle), 625
vasculitis of (Moser), 481
Rhinitis, allergic (Liddle), 628
Ristocetin (Moser), 450
RO 2-5803 (Kahn, Lewis, Killough, and Abrams), 147
RO 4-1778 and RO 4-1778/1 (Fraser, Martin, Wolbach, and Isbell), 287
Russian drug index, 542

S

Salmonella enteritis (Moser), 509
Sarcoidosis (Liddle), 629
SC-9420 (Streeten), 359
Scandinavian method of treatment of barbiturate poisoning (Clemmesen and Nilsson), 220
Scorbutic arthropathy (Moser), 482
Secobarbital (Shideman), 313; (Wilson and Huby) 587
Secretion of thyroid hormones into circulation (Selenkow and Collaço), 198
Sedative hypnotic drugs (Friend), 833
Sedatives and hypnotics, clinical pharmacology (Shideman), 313
Selective toxicity (Albert) (B. rev.), 270
Sensitivity, collateral, and cross-resistance (Brockman), 252
studies with demethylchlortetracycline (Vosti, Willett, and Jawetz), 34
with penicillin X-1497 (Roberts, Allen, and Kirby), 70
Shock (Liddle), 630
Side effects of drugs (Meyler) (B. rev.), 549
Sinus slowing, effect of digitalis (Modell), 178
SKF 6574 (Papadopoulos and Keats), 8
Smoking and nicotine, effects on metabolic functions (Larson, Haag, and Silvette), 80
Sodium bicarbonate (Friend), 703
dehydrocholate versus sodium succinate, circulation time (Schoenfeld and Messeloff), 815
depletion (Moser), 489
6-(2,6-dimethoxybenzamido)penicillanate monohydrate (Roberts, Allen, and Kirby), 79
lactate (Bellet), 349
metabolism, effects, of nicotine and smoking on (Larson, Haag, and Silvette), 91
thiosulfate (Done), 766
Spinal anesthesia, complications after (Moser), 494
cord, effects of sedatives and hypnotics on (Shideman), 321
in situ, effect of buffered methiodal on reflex activity of (Harvey, Freiberger, and Werner), 613
Spironolactone and spirolactones (Streeten), 359
in therapy of edema, 368
Splenectomy, complications after (Moser), 509
Sprue, nontropical (Liddle), 629
Staphylococcal infections (Dowling), 572
penicillin X-1497 in (Roberts, Allen, and Kirby), 76
Staphylococci, lysis by X-1497 (Roberts, Allen, and Kirby), 72
problem (Moser), 448
Staphylococcus aureus, demethylchlortetracycline with (Vosti, Willett, and Jawetz), 35
Statistical probability (Werner), 143
Steroid syndromes (Moser), 483, 484
Steroidal spirolactones (Streeten), 359
Steroids, anti-inflammatory, clinical pharmacology (Liddle), 615
effect on bundle branch block caused by arteriosclerotic heart disease (Schoenfeld and Messeloff), 692
Stimulant drugs, action on central nervous system (Wilson and Huby), 587
Studies on analgesic drugs. VI. Comparative respiratory depressant activity of phenazocine and morphine (Papadopoulos and Keats), 8
in postpartum patients (Gruber, Doss, Baptisti, and Chernish), 429
of anesthetic agents (Keeri-Szanto, Knaff, and Rondeau), 441
of chlorpropamide action in diabetes mellitus (Beaser), 157
comparative, of optimal medical care with and without azaserine in multiple myeloma (Holland et al.), 22

Studies—Cont'd
experimental (DeGraff), 427
in industrial medical departments (Warshaw), 232
on methdilazine (Friend), 605
on methionine sulfoximine, effect in man (Krakoff), 599
of nerve injury from intramuscular barbiturate injection (Richards), 262
of patients' preferences, clinical trials based on (Acland), 581
of penicillin X-1497 in man, pharmacologic (Roberts, Allen, and Kirby), 70
of responses to drugs acting on central nervous system (Wilson and Huby), 587
Style guide for chemists (Fieser and Fieser) (B. rev.), 411
manual for biological journals (Conference of Biological Editors) (B. rev.), 552
Substances generally recognized as safe under the conditions and with the limitations prescribed (New information on drugs), 819
Succinate, sodium, versus sodium dehydrocholate, circulation time (Schoenfeld and Messeloff), 815
Succinimide derivatives (Gunn, Gogerty, and Wolf), 740
Sulfur metabolism, effects of nicotine and smoking on (Larson, Haag, and Silvette), 94
Suppression of opiate abstinence reaction (Fraser, Martin, Wolbach, and Isbell), 290
Surgical anesthesia, interaction of thiopental and oxymorphone during (Keeri-Szanto, Knaff, and Rondeau), 441
operations, intravenous anesthetics during, limiting factor in utilization (Keeri-Szanto), 45
trichloroethylene as anesthesia in (Defalque), 676
progress, diseases of (Moser), 507
Sympathetic ganglia (Winsor and Hyman), 643
Sympathomimetic drugs that increase cardiac rhythmicity (Bellet), 345
that secondarily decrease cardiac rhythmicity, 350
Symposium on experimental pharmacology and clinical use of antimetabolites. V. Use of combinations of antimetabolites for chemotherapy of cancer (LePage), 121
VI. Mechanisms of resistance to metabolite analogues with anticancer activity (Brockman), 237
VII. Spirolactones (Streeten), 359
VIII. Folic acid antagonists (Holland), 374
IX. Pyrimidine and purine antagonists (Burchenal and Ellison), 523
Synergism (Shideman), 329
Synthesis, lethal, and enzyme deletion (Brockman), 238
Systemic antidotes, clinical pharmacology (Done), 750

T

Temperature, effect of nicotine and smoking on (Larson, Haag, and Silvette), 83
and metabolic rate, effects of hypnotics and sedatives on (Shideman), 327
Tetracyclines (Vosti, Willett, and Jawetz), 36
antibiotic, clinical pharmacology (Kunin and Finland), 51
Tetraethylammonium chloride (Winsor and Hyman), 646
Theorist and practitioner (DeGraff), 427
Therapeutic applications and metabolic effects of triiodothyropropionic acid (Leeper, Mead, Money, and Rawson), 13
aspects of antithyroid drugs (Selenkow and Collaço), 206
effects of tetracyclines (Kunin and Finland), 64
responses to anticancer drugs, meaningful clinical classification (Karnofsky) (Edit.), 709
trends in treatment of barbiturate poisoning, Scandinavian method (Clemmesen and Nilsson), 220
trial of linctus pholcodine and linctus diamorphine to determine patients' preferences (Acland), 581
usefulness of spirolactones (Streeten), 363
uses of corticosteroids as anti-inflammatory agents (Liddle), 625
Therapy, background hypotensive, mild drugs suitable for (Smirk), 114
drug, and geriatric patient (Friend), 832
in hypertension (Smirk), 110
useful principles and practices (Friend), 135
of edema, place of spironolactone (Streeten), 368
hypotensive, choice of drugs, practical detail, and selection of patients (Smirk), 113
replacement, in myxedema complicated by angina pectoris (triiodothyronine) (Leeper, Mead, Money, and Rawson), 13
Thermometry (Winsor and Hyman), 639
Thiamine metabolism, effects of nicotine and smoking on (Larson, Haag, and Silvette), 94
Thiocarbimyl and derivatives (Selenkow and Collaço), 200
Thioguanine (Brockman), 241; (Burchenal and Ellison) 529; (LePage) 121
Thioguanosine (Burchenal and Ellison), 536

Thiopental (Keeri-Szanto), 45; (Price) 170
and oxymorphone, interaction during surgical anesthesia (Keeri-Szanto, Knaff, and Rondeau), 441
Thiopropazate (Wilson and Huby), 587
Thiosulfate (Done), 766
Thiouracil (Selenkow and Collaço), 191
Thrombotic thrombocytopenic purpura (Liddle), 627
Thyroid activity in man, smoking and (Larson, Haag, and Silvette), 82
drugs (Moser), 457
dysfunction, 490
hormones, secretion into circulation (Selenkow and Collaço), 198
Thyrotoxic ophthalmopathy (Selenkow and Collaço), 212
Thyroxine (Selenkow and Collaço), 191
analogue, triiodothyropropionic acid, as hypocholesterolemic agent in euthyroid individuals, and as replacement therapy in myxedema complicated by angina pectoris (Leeper, Mead, Money, and Rawson), 13
Time/dose curves, anesthetic; interaction of thiopental and oxymorphone during surgical anesthesia (Keeri-Szanto, Knaff, and Rondeau), 441
limiting factor in utilization of intravenous anesthetics during surgical operations (Keeri-Szanto), 45
Tobacco: Experimental and clinical studies (Larson, Haag, and Silvette) (B. rev.), 556
Tolazoline (Winsor and Hyman), 648
Tonsilloadenoidectomy, speech defects after (Moser), 510
Toxemias of pregnancy, spirolactones in (Streeten), 367
Toxic methemoglobinemia and treatment (Done), 770
phosphorus esters: Chemistry, metabolism, and biological effects (O'Brien) (B. rev.), 412
Toxicity and/or untoward effects of amine oxidase inhibitors (Scherbel), 564
of analgesic drugs (Gruber, Doss, Baptisti, and Chernish), 429
of antiarrhythmic drugs (Bellet), 345
of antithyroid drugs (Selenkow and Collaço), 203, 211
of central nervous system drugs (Wilson and Huby), 587
of digitalis (Modell), 188
of folic acid antagonists (Holland), 381
of hypnotics and sedatives (Shideman), 328
iatrogenic, during drug therapy (Moser), 446
Toxicity and/or untoward effects—Cont'd
of imipramine hydrochloride in cardiovascular patients (Muller, Goodman, and Bellet), 305, 306
of methiodal (Harvey, Freiberger, and Werner), 610
of methionine sulfoximine in man (Krakoff), 599
of α-methyltryptamine and α-ethyltryptamine in man (Murphree, Dippy, Jenney, and Pfeiffer), 722
of narcotic antagonists (Elliott and Way), 720
of penicillin X-1497 (Roberts, Allen, and Kirby), 78
of purine antagonists (Burchenal and Ellison), 523
of RO 2-5803 (Kahn, Lewis, Killough, and Abrams), 148
of sedatives and hypnotics (Shideman), 321
of spirolactones (Streeten), 368
of tetracyclines (Kunin and Finland), 61
of trichloroethylene (Defalque), 672
of vanillic acid diethylamide in man (Miller, Hand, and Crellin), 689
of vasodilators (Winsor and Hyman), 644
of vitamin K (Finkel), 800
Toxicology: Mechanisms and analytical methods (Stewart and Stolman) (B. rev.), 272
and pharmacology of trichloroethylene (Defalque), 665
Tranquilizers (Gunn, Gogerty, and Wolf), 742
action on central nervous system (Wilson and Huby), 587
phenothiazine (Done), 775
Transfusion, diseases after (Moser), 470
Tranylcypromine (Scherbel), 561
Triamcinolone (Liddle), 623; (Schoenfeld and Messeloff) 692
Trichloracetic acid (Defalque), 667
Trichlorethanol (Defalque), 668
Trichloroethylene, toxicology and pharmacology (Defalque), 665
Triiodothyronine (Selenkow and Collaço), 191
Triiodothyropropionic acid, metabolic effects and therapeutic applications (Leeper, Mead, Money, and Rawson), 13
Trimeprazine (Friend), 605
Trimethadione (Gunn, Gogerty, and Wolf), 738
Trimethidinium (ostensin) (Smirk), 117
Trophoblastic neoplasms (Holland), 385
Tryptamine (Murphree, Dippy, Jenney, and Pfeiffer), 722
Tuberculosis (Moser), 483
Tumorogenesis and antithyroid drugs (Selenkow and Collaço), 206
Tumors, solid (Burchenal and Ellison), 536

U

Ulcerative colitis, chronic (Liddle), 629
Ulcers (Moser), 477, 482
United States Pharmacopeia, physician and (DeGraff (Edit.), 283
Untoward effects (*see* Toxicity and/or untoward effects)
Uracils (Brockman), 237
Uric acid calculi (Moser), 488
Urinary tract infections, demethylchlortetracycline in (Vosti, Willett, and Jawetz), 35
Urine retention, acute (Moser), 506
Urticaria (Moser), 463
Urushiol reaction (Friend), 605
Uveitis (Liddle), 628
